

Certificate of Attendance

We hereby confirm that **Sascha Berrang** participated in the following webinar (online seminar):

- **"Leave it!"**

"Leave it" is often a misused and undertrained behavior. Too often trainers don't break down this complex behavior into small, manageable pieces and end up saying "leave it," but then yanking on the leash.

I've broken this down into many logical approximations, and take it to the real world. It's all well and good that your dog can "leave it" during a training session, but can they "leave" the pill you accidentally dropped? The puddle that may have antifreeze in it? The poop on the trail? This webinar will provide you with a toolbox to successfully work on it.

- Speaker: **Pamela Dennison, CWRI, CDBC**
- CEUs: 2 Points for KPA, IAABC and CCPDT
